

# BION

Announces two professional products that are now available for retail sale.

**Hydrating Gelee Mask 4 oz.** – Helps the skin re-establish the lipid barrier functions and reduces dry, scaly skin conditions. By providing therapeutic amino acid action, Hydrating Gelee Mask promotes healing and is very effective in relieving inflammation in the form of burning, stinging and erythema. It should be applied generously and allowed to absorb for several minutes. It can be rinsed off or left on for maximum benefit. This product is sold under the professional treatment name of Hydrating Massage Mask.

**Refreshing Toner 4 oz.** – Has enzyme action to remove cellular debris and therapeutic amino acid action to promote healing. Refreshing Toner also has ingredients to increase the water content in the top layers of the skin and is a skin conditioner, astringent and gives the skin a smooth appearance with a finer softer texture.
